

IMAGE RECOGNITION WITH IBM CLOUD VISUAL RECOGNITION

PHASE 3:

Start building the image recognition system using IBM cloud visual recognition.

Image Recognition Setup:

Create an IBM cloud account, set up the visual recognition service, and obtain API keys. Design a simple web interface where user can upload image and AI generated captions

User Interface:

Design a simple web interface where user can upload image and AI-generated captions.

Source code:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <p style="font-size: 125%;">HTML
Continue building the image recognition system by integrating IBM Cloud Visual
Recognition
and AI-generated captions.
Implement the image classification process using the IBM Cloud Visual Recognition
API.
Use natural language generation to create captions for the recognized images.</p>
<title>Image Recognition System</title>
